BIO:

Two Faces West was founded in the small mountain town of Gunnison, Colorado and relocated to the mile high city of Denver in the fall of 2015, where they have burst into the music scene as one of its premier live acts! In just a few short years of living in the city, the Faces have made quite a name for themselves

everywhere from small mountain town bars to shows at iconic Denver venues. The TFW sound is described as a fiery blend of rock & blues, which focuses on the roots of blues, while expressing its core in pure rock'n'roll, and topping it off with a touch of funk to create a versatile and distinctive Colorado sound: Crankin' Electric Rock & Blues!
