BIOGRAPHY

Two Faces West was founded in the small beautiful town of Gunnison, Colorado. After establishing a tight power trio over their years at Western State Colorado University, & with a goal of sharing their unique rockin' mountain sound with the world, the trio

relocated to the mile high city in the fall of 2015

where they have burst into the Denver music scene as one of its premier live acts! In 2017, they released their latest EP *By the Book*, which is described as a fiery blend of rock & blues,

which focuses on the roots of blues while expressing its core in pure rock'n'roll, and topping it off with a touch of funk to create a versatile and distinctive Colorado sound.
